Instances of copying at the Examinations held under the superintendence of the Local Board of the Science School, Belfast, having been detected and reported by two of the Society's Examiners, all the candidates implicated have been excluded from receiving certificates.

Proceedings of the Society.

CONVERSAZIONE.

A Conversazione took place at the South Kensington Museum on Thursday evening, the 23rd inst., when nearly 4,000 members of the Society and their friends were present. The bands of the Scots Fusilier Guards and of the Royal Horse Guards attended and performed selections of music during the evening.

Proceedings of Institutions.

METROPOLITAN ASSOCIATION FOR PROMOTING THE EDUCATION OF ADULTS.—The fourth annual gathering for athletic sports will be held at the Crystal Palace, on the 1st July next, to commence at half-past one o'clock punctually. The sports will include flat races, 100 yards, 300 yards, and 500 yards, and one mile, throwing the cricket ball, running high jumps, running long jumps, hurdle races, putting the stone, throwing the hammer, a sack race, 100 yards, concluding with a consolation hurdle race of 200 yards with ten hurdles. The prizes vary from 5s. to 15s. Members of Institutions connected with the Metropolitan Association who intend to compete must send in their names to the Secretary of the Institution to which they belong on or before June 24th. Referees and umpires will be appointed by the committee. No prize will be given unless at least five duly qualified candidates contend for it. Not more than four members of any one Institution will be allowed to contend for each separate event. These sports being solely intended to give encouragement to exercises of strength and skill among the members of the Institutions in Union with the Association, professionals, or any whom the referees may deem ineligible, will be rigorously excluded. There will be the usual attractions of the Crystal Palace, with a balloon ascent, singing by a choir of 300 voices, brass bands, &c.

THE PARIS EXHIBITION.

There are few of the classes on the English side better filled than that which includes ores and minerals, rough iron, and other metals, tools, china clay, fire bricks, tea-trays, nails, pins, needles, and buttons. The space was totally inadequate to the number of exhibitors, so that several sections have necessarily been split in two, and placed part in this court and part in that of machinery; iron tubes, springs, buffers, iron gates, nuts and bolts afford instances of this. A similar remark will apply to carpets, which, for want of wall space elsewhere, are
